

Pure gases that
match your resolution
requirements - **guaranteed.**

The Alphagaz range of pure gases in a high capacity cylinder and with guaranteed low levels of impurities.

All of our Alphagaz 1 quality gases are specified to meet laboratory and process analyser's requirements for % to ppm analyses.

Alphagaz 1 brings the following quantified benefits:

- Enhanced purity, traceability and product integrity via our innovative packaging (Minimum Pressure Valve and Traceability tag)
- Simplified selection and cylinder management leading to inventory reduction
- Cost savings via consolidation of gas grades

Impurity Specifications:

Gas	H ₂ O	O ₂	THC
Ar	≤ 3ppm	≤ 2ppm	≤ 0.5ppm
He	≤ 3ppm	≤ 2ppm	≤ 0.5ppm
N ₂	≤ 3ppm	≤ 2ppm	≤ 0.5ppm
O ₂	≤ 3ppm	-	≤ 0.5ppm
Air	≤ 3ppm	19 - 21%	≤ 0.5ppm
